

# Loveland

Elia wakes up

## *"Blinky Star, the storyteller"*

Dearly beloved Earth children, my name is Blinky star and I am a storyteller, just like my mother. I am a star child and live together with all of my star family high in the heavens. In the heavens there are a lot of different star families and they all live just like you on a similar planet to mother Earth, but on our planets there are more colors and there is more light.

Did you know that we are all related to each other? This is because all beings everywhere, on Earth and in the heavens, all have a beautiful shining star of light inside their hearts. This light that also lives inside of you, we call the soul. It lives forever and does not need a bus, bicycle, car, airplane, or train to travel anywhere. Isn't that fun?!!

There is only one difference between our star family and you Earth children. We look somewhat different in appearance. Sometimes we are really small, as small as fairies and gnomes, and sometimes we are reeeee-ally big, like giants. Some of us have no ears and

no noses and some others have really big noses and pointed elf ears.

We also have different colors, sometimes our skins are blue, green or as white as light. Some look like animals, and there are also star families with wings that don't really have bodies like the others, they are more light beings and you can look right through them. I

think you call those Angels on Earth. I will tell you a little secret....., the dragons, fairies, elves and gnome families you Earth children read about in your fairy books, are all real!! In our worlds they are our best friends and I, Blinky love to play with them.

We star family do not know what money is, we always barter toys with one another and our parents also do only barter. Everything here is love and we don't know what bullying or angry behavior is.

With you on mother Earth all this was once the same, you also lived without money and also didn't bully and were never angry. Back then there was only love and happiness. And always enough healthy food and clean water for everyone. No one was ever thirsty or hungry and everyone shared everything with one another.

Back then all the people on mother Earth were still pure love, and the golden lightstar was shining in all people's hearts. The lightstar then was just as big and beautiful as your golden Sun. And because your lightstar was so powerful, everyone could do magic on mother Earth. Just like we can, your star family.

But a very, very.... long time ago something changed

in the hearts and minds of the people of mother Earth. They chose to forget what pure love felt like. They forgot to love the water, the food, the plants, the flowers, the trees, all animals and how to live in harmony and love each other.

From that moment on everything changed on mother Earth. The people didn't know how to take good care of mother Earth anymore and all of her beautiful plants, trees, flowers, animals and waters. The starlights in the hearts of all people became smaller and smaller, and with some it went completely dim!

Mother Earth was sad, she saw her waters becoming dirtier, the rainbow sky disappeared, the colors of all natural life became paler and paler., the people, animals, flowers and trees also became smaller and smaller. People started to fight with one another and pure love as it once was slowly began to fade away...

So mother Earth decided to call in the help of all her other star family high in the heavens. Together with her star family Mother Earth made a plan of light, to bring back pure love and light into all the hearts of all the people on Earth, for once and for all. The plan they made was called Loveland.

Now mother Earth has asked me, Blinky star, the storyteller, to share the story of Loveland with you all. So that all Earth children can help bring back the feeling of pure love, so that all the lights in all people's hearts can shine in full brightness once again, just like your beautiful golden sun does.

Know that mother Earth and all your star family are always very close to you. Even if you can't see us yet, know that we are always standing in love and light right next to you, together hand in hand. So let us all together as one big star family bring back the pure love and light to mother Earth. Because if the full bright light of the pure heart returns to everyone, they can all do magic again! Know that the other star children are waiting and are very excited to be able to play, sing, fly and do magic once again with all of you.

## *"Elia wakes up"*

In a big gray city somewhere here on Earth lived a girl Elia together with her mom, dad and brother Qio, in a very high flat on the 13th floor. When Elia looked outside through her bedroom window she could only see more high flats and a lot of really small dots; these were the other people that also lived in the big gray city. There were no happy colors and the nice warm sunshine could never reach Elia's face because of all the big and high buildings that stood in front of the sun.

This made Elia sad. Every day when she looked outside through the bedroom window she dreamed that the big city changed into a magical rainbow world, with colored flowers, trees, nice warm swimming water, lots of pets, flower elves, dragons, unicorns and butterflies to play with. This is why Elia would rather be in her own dreamworld than in the real world. Because there she was always happy!

Coloring pictures was Elia's favorite thing to do... At school and at home in her bedroom. Elia had already colored her dogs and all her other rainbow family in her coloring book. She did this every day, and hoped that one day her wish would come true! Play with her rainbow family in rainbowland.

At school Elia's nickname was Dreamy, her teacher Mrs. Anna had given her that name because dreaming and coloring rainbowland was the thing she loved to do most of all.

In the middle of the schoolyard there stood a beautiful big tree, the biggest and most beautiful tree that Elia had ever seen in the big gray city where she lived.

Always, when playing outside in the schoolyard, she went to that special tree and sat against it and felt so much love.. The tree also seemed to make her rainbowland more real.

Elia called her big tree friend Kai. And during every break she sat with her back against Kai, and asked, if maybe he knew how she could get to her rainbowland, maybe there was a secret door somewhere? Kai would know, Elia thought. Because deep inside her heart she could feel that.

A week later Elia was enjoying the presence and love that Kai always gave her. But this day became a day as no other ever before! Suddenly Elia felt herself floating above the schoolyard...

Everything started to spin and it felt as if they were flying. All around her she could see rainbow colors. Elia had never spun this fast before, when she was dancing in her bedroom. When the spinning suddenly stopped, she saw, everywhere she looked, a heavenly sparkling blue ocean and a really huge golden sun that warmed her so wonderfully.

Wow Kai, is this perhaps the door to my rainbowland? Elia asked...

Ewa our grandmother tree and Misae our grandfather sun, live together in the middle of our mother Earth Gaia. The middle of the Earth, where air, water, wood and fire come together, there you will find the door to your rainbowland, Kai explained.

But you can only find the door if you close your eyes and you go through the darkness in yourself and look for your own sparkling lightstar within, Kai continued.

So ask mother Gaia tonight, before you go to sleep, if she will show you the way to that sparkling lightstar that you also are. There you will see your door of your own magical rainbowland, Kai answered.

Thank you so much Kai! I feel like sleeping already, Elia said with a big smile on her face.

Ring, Ring, Ring and Whoosh...., the school bell brought her and Kai back again to the schoolyard and back to the big gray city. Still a little dazzled from the fast spinning, Elia gave Kai a big long hug and said happily, see you tomorrow my dearest friend, I love you!

That night Elia did what Kai had told her to do. She

closed her eyes and asked mother Gaia to show her the way to her own sparkling light within herself and to the door that would bring her to rainbowland.

At first nothing happened! But then when she almost fell asleep, she suddenly saw a small bright sparkling lightstar appearing in the darkness, when she focused on the light it changed into a beautiful and magical door, with all kinds of butterflies around it in all colors of the rainbow...

Wow... such a beautiful door she had never drawn and seen before!!! As fast as she could she opened the door and walked through, she couldn't see yet, because her eyes needed to adapt to the bright light and all the beautiful colors....

Suddenly she felt herself changing, she looked at her arms and saw they became blue and on her head she felt what seemed to be a flower crown, but what was that other feeling??? It felt like she was growing some huge butterfly wings???

Now Elia remembered!! She was changed into a butterfly princess, just like she had once drawn herself... Wow!!! Elia had never been so happy in her life!!! She

had to laugh, because she was so happy to finally be home again in her own rainbowland. When her eyes had adapted to the bright light and all the colors she could finally see fully where she was.

Wowwww, she was sitting on a giant root of a giant tree, between her and rainbowland there were beautiful pink crystal rocks and the magical sea gave off sparkling bright colored lights. The sea here looked like a starry night sky.

And everything was here, exactly as she had drawn her rainbowland with her color pencils. She saw waterfalls, spiral trees, gnome houses, butterflies and all the colors of the rainbow. So much love and bliss she had never felt at home. Maybe rainbowland was her real home after all?

Suddenly she heard a sweet soft voice saying...., welcome dear Elia in your very own rainbowland, I am Mother Earth. They also call me Mother Gaia.

Hello Mother Gaia, I am so happy that I can finally talk to you. I have always known that you are real! But where are you? I can't see you? Elia asked surprised.

Mother Gaia had to laugh... she continued..., I am always everywhere around you, here in rainbowland but also back home. Now I am in this giant tree, and if you look really carefully, I know you can find me... And know dear Elia, you can always call for me! Because I live in all things, always and everywhere.

You can feel my heartbeat, love and light in all trees, plants, flowers, seas, rivers, the wind, the rain, the sun, the snow, the animals and also in all the people, because I am alive just like you! Only my body is somewhat bigger, mother Gaia giggled... because my body is the planet Earth.

So that's why I always feel a heartbeat rhythm and so much love when I am together with tree brother Kai on the schoolyard! You make me so happy, sweet mother Gaia! Elia replied joyfully.

My lovely child, mother Gaia continued, I always knew you could feel me, you just couldn't hear me yet. But deep in your heart you already knew, because you have always shared your love with all flowers, trees, animals and all people that crossed your path. Love is the secret to be able to feel me in everything on Earth. And when someone becomes pure love, like you dear

Elia, then they will also be able to directly talk to me.  
So my sweet child, always stay pure love!

Yesssss, Mother Gaia I promise! Then can I now go  
to rainbowland? Elia asked impatiently...

Mother Gaia smiled and said, of course, missy im-  
patient, now it's time to get to know your very own  
rainbowland. To get over the big crystal sea you need  
to take the huge rainbow slide. The slide will bring you  
to the beach of rainbowland. Have lots of fun my dear!

Suddenly Elia could hear some happy barking and two dogs came flying towards her. She giggled, because the doggies were colored pink and purple. Elia knew those two sweeties already, she already drew them back home. She was so happy, finally her doggies were real.

The two sweet doggies jumped all over her and started to give her a lot of kisses. After hugging and playing with each other for a while Elia decided that it was time to slide off the rainbow with her doggies. One, two, threeee, and whoppa.....whoosh....., wow that went super fast. Together they rolled onto the beach of rainbowland. Elia had to laugh so hard that her belly cramped, Wowwwie, that was the most wonderful and biggest slide ever!

But now what? Where do I go now, Elia thought.

While she was still wondering, there suddenly appeared a little green forest elf on her arm, and he was exactly like she drew him before. Elia had to smile...

Welcome Kimama in your very own rainbowland, I am Orenda your elf magician and I am going to teach you how to do magic again. What funny name is that? Elia

asked in surprise. My name is Elia.

Yes, when you're at home on Earth your name is Elia, but here in your rainbowland your name is Kimama... I will explain why, Orenda continued, in rainbowland you have magical powers and butterfly wings. The meaning of Kimama here is "Magical butterfly that brings pure healing love".

With your magic rainbow wand you can draw crystal-lines which you can bring to life with your love magic. All the light spheres you see here, you can also use for creating new life. You can draw an apple with your

rainbow wand and then with your love and light you transform it into a real apple. And you yourself can also fly, you only forgot how to... but all of that you will remember soon.

Really Orenda? Can I really fly and do magic? Kimama asked.

Yes, really, this is your rainbow world and you create this world as you wish. You can change all forms and colors of it and make it bigger every moment. When you are here, but also at home and at school when you are drawing, Orenda answered.

Wowww, that's super exciting and very cool!!! Kimama called out happily...

Orenda went on explaining: Actually all adults and children on Earth are magicians, and they all have magical powers too, like you, to create their own rainbow worlds. Sadly enough most grown-ups and children have forgotten this.

But luckily you started to remember, dear Kimama. That is, because you are always showing love for all the flowers, trees, animals and people you meet or

come by. This is the reason why mother Gaia chose you for this mission of bringing love and light back to all people.

Mother Gaia asked brother tree, Kai to help you find the door to rainbowland. Now you can help other grown-ups and children who have forgotten this to remember. The big secret is, love. You can only go through the door if you are pure love. So Kimama, from now on, when you are somewhere you only need to be your pure loving self. By being pure love, everything around you will change to pure love also...

So through my pure love I show others the way to their magical door? Kimama asked.

Yes dear Kimama, when others feel your pure love they will rediscover the pure love in themselves. And the more people find their inner light door and start to create their own rainbowworlds from inside, the more loving and more beautiful life on mother Earth will become, Orenda replied.

But what does inner mean, Orenda? I never heard that word.

Inner means that when you close your eyes and go within yourself through the dark looking for the beautiful bright light star that lives in everyone's heart. And when you see something that makes you a little bit scared, you can make it go away by just shining your light and expanding your love.., Orenda explained.

Ahaaa, so that's what inner means, thank you Orenda, Kimama answered.

Orenda continued: So if you keep doing this, sweet Kimama, then the whole world at home will change with you.

Ooooh, so then mom and dad are going to move to the sea and I can get two sweet doggies!!, Kimama shouted happily.

Orenda had to smile, and said, if you keep believing that everything is possible, then you can constantly change your world.

But tell me, Kimama, have you thought of a nice name for your rainbowland yet? Orenda asked. Well, since I am here I can only be happy and feel love, so I am going to name my rainbowland, Love-

land! Kimama said joyfully.

Then I welcome you in your very own Loveland Kimama. Shall we fly around Loveland? Orenda asked... Yessssssss, Yippppppy, Kimama yelled happily.

Orenda went on..., Kimama hold your magic rainbow wand high up in the sky and feel the love in your heart, think of a horse and call Snowflake in silence and.....

Huh? Call in silence? Snowflake? What do you mean Orenda? Kimama asked surprised.

On Earth people are used to talking with their mouths, but here you only need to think of something and then it will come to you. Here you can talk through thinking, words spoken with your mouth are not needed. This way of talking without words is called "telepathy". All our starfamily also talks with each other in that way, Orenda explained.

Ok, now I think I understand it, Kimama replied a little hesitantly.

So Kimama, Orenda continued, feel the love in your

heart, think of a horse and call the name Snowflake in silence. Connect your love with the rainbow light in your magic wand and call out loud,

“Mother Gaia I am your heartbeat, give me a magical Loveland seed!, thank you and I love you” , and then you will meet Snowflake.

And lo and behold, in her Loveland Kimama was a real magician. She could suddenly see in the distance a swirling circle opening from which a horse appeared with wings and a kind of magic light wand on its forehead. She now remembered that a year ago she drew just a horse like that.

Welcome Kimama in your beautiful Loveland. I am Snowflake the unicorn and I am here to introduce you to all of your Loveland family. You’ve already met Orenda the magician elf and your two flying doggy friends too, I see.

Your pink dog friend’s name is Sjula and your purple dog friend’s name is Maly. They are the gatekeepers of your magical door here in Loveland. When the door changes color this means that someone wants to come and play in your Loveland.

Then Sjula and Maly will fly to the door to look who is there. Sjula or Maly will send you a message through thought so you can decide if that someone can come

play in your Loveland, Snowflake explained.

Hmmmmmmm, I don't understand that Snowflake. Who are the others? And what is a gatekeeper exactly? Kimama asked.

Gatekeepers are the protectors of your Loveland, Snowflake continued. Sjula and Maly make sure that the only thing that can come through the door of Loveland is pure love. And those others can be friends from school who have also found the door to their own magical worlds.

Those children can then come and play in your Loveland, but you can also go play with them in their worlds. You will fly to those worlds of your friends, on my back, because I am here also to show you and help you remember how to travel between all the different star worlds. I know the way in all worlds and between all stars and star family. And like you, all the other children also have a favorite animal for a guide that helps them to travel around between all the star worlds.

Kimama happily answered, finally I understand it Snowflake! That will be super cool to be able to play

and fly here with all my friends. I will tell them all of the inner sparkling bright starlight and the door, so we can all play with each other in all our different worlds between the stars!!

While Kimama did her happy dance, she sang loudly... Hey will you go with meeeee, to Loveland at the seaaaa, la, la, la, la, la, laaaaaa. thank you beloved ALL!, she shouted happily.

Snowflake, Orenda, Sjula and Maly had to laugh like crazy, they were so amused by the happy dance and song Kimama sang and so thankful that Kimama had finally returned to her star family in Loveland. Come sweet Kimama, then we will fly around Loveland, Snowflake said.

But Snowflake I don't know yet how to use my wings to fly, she answered.

That's why I am here, I am going to teach you all of that again, you already know it, but you forgot it. So now, until you can fly again, you can safely fly with me on my back until you're able to fly yourself. Come sweetie, jump on my back, time to meet everyone here.

Yayyyyyy, finally, flying, Kimama shouted happily.

And so she jumped as a light feather on Snowflake's back, and while doing that she suddenly flapped her wings a few times, haaaa...ha, hiii...hi, that felt really weird, Kimama giggled.

Snowflake had to laugh too and said..., well hold very tight now love, one, two, three, and there we goooo..., flying through your Loveland together Yi-haaaawhooo!!!!

Now that they were that high in the sky, Kimama saw for the first time everything she had ever drawn with her colors. Here in Loveland all her drawings were

real and alive! She saw the waterfalls, all her spiral colored trees, and gnome villages..., even the waterfalls and trees had faces., it all became real!!

Snowflake, do you hear that too?.., I hear someone sing.. Ooooo, I know where it is coming from! Look down there, near the waterfalls. I see two little elves singing.. Yes, I know them, I was drawing them at school a week ago!! Wow..., they became real!! Can we first go visit them Snowflake?, asked Kimama with a big smile on her face.

But of course sweetheart, hold very tight because we are going to land..

Welcome, welcome..., sweet Kimama!! We are the singing elves of Loveland. I am Star, said the elf with the purple dress and this is my sister Sun. Together we sing everywhere in Loveland. But it is not just the two of us, the trees, crystalrocks, flower and water beings are the ones who bring forth the new sounds. We give the sounds words, so it becomes a song. In Loveland everything is music and everything has its own beautiful sound.

Thank you sweet Star and Sun!!, Kimama answered

happily.. I also love to sing! Do you already have a song to sing? Because when Snowflake and I were flying, we heard you both singing so beautifully!

Yes, answered Sun..., we already knew that you would find your magical door to Loveland, so we asked the tree beings for the first magical sounds of the Loveland song. And we created the words! The first part of the song sounds like this!

Star and Sun started to sing...,

*Everybody close your eyes,  
the way to our starlight.  
Being love is all we need,  
together we are magic seeds.  
Give each other a hand,  
with unity comes Loveland.  
With the flute and the drum,  
singing and having fun!!!*

It gave Kimama goosebumps..., so beautiful!

Soooo!!!!, you both have voices like angels! I never ever heard anyone sing as beautifully as you two! Thank you so much! And I just love the words of the song..

But Snowflake and I have to go now, because I am so curious about the rest of the Loveland family! Promise me that you two will find me, when you have a new part of the song ready. I love to hear the complete song of Loveland.., Kimama asked.

Yeahh, of course we will come and sing for you when we have a new part ready! The water beings already

told us that there are new magical sounds for us to hear.. So we will see you soon, Kimama!!

Bye now, sweet Star and Sun!!, until we meet again!!, Kimama called out happily!

Snowflake and Kimama were flying again, high in the skies of beautiful Loveland

Suddenly she saw a dragon she recognized from one of her drawings. Snowflake!!!!!!!, Kimama yelled joyfully. Look!!....., over there, that's my dragon!!! Can we first fly to her?

I was already on my way to the dragon, Snowflake said. I already know what you are thinking, remember???. So you only need to think about it and there we go, on your way to what you just thought of.

Ooo, yes, indeed. Orenda already talked about that, telepathy, I totally forgot about that, Kimama laughed.

Snowflake made a soft grass landing on Dragon Hill... Welcome Kimama, I am Eona the female dragon, and I take care of all the life in the water here in Love-

land, such as the dolphins, the mermaids, the rainbow fishes, and of course all other water beings that you will draw in the near future with your magic wand here in Loveland. And this little loyal girl friend on my back you see, is Pavati.

Hello dear Kimama, Pavati said joyfully. I make sure the Loveland water continuously stays healthy and clean, so everyone can always enjoy drinking water that is healing, fresh and pure.

That's so great to hear Eona and Pavati, thank you both so much for taking such good care of the water beings and our sister water. I am so happy to be here, I will soon return and visit again.

Now I need to go with Snowflake to meet the rest of the Loveland family. I am curious to meet everybody. So until next time Eona and Pavati, Kimama said while jumping on Snowflake's back, waving them goodbye.

Bye, Bye, see you next time Kimama, and have fun meeting the rest, Eona and Pavati yelled happily.

So they flew on, in the direction of the waterfalls, and now Kimama could see another dragon which she remembered from a drawing...

Yeah, yeah, Snowflake immediately said, I will introduce you to him too. Snowflake was again telepathically reading Kimama's thoughts.

Hi, hi,...again I totally forgot about you reading my thoughts. You keep surprising me with that telepathy, and Jeezzz how handy it is, Kimama giggled.

The dragon came flying next to them, because he also picked up Kimama's thoughts. Welcome beloved Kimama, I am sooo happy you are finally here. I am the male dragon Eon, I take care of all the trees in Loveland. And my loyal helper friend is Maka and he lives in one of the colored spiral trees, Eon said.

I am soooooo happy to meet you Eon, and thank you

for taking such good care of our tree family, Kimama answered back.

Suddenly they heard beautiful singing sounds coming closer.., look up there, Eon said. The singing elves are coming our way.

Hello, all you dear ones!!, Kimama we have a new part of the Loveland song ready!

Oooo, that is such great news!! Please, start singing, dears, so we can enjoy your beautiful angel voices..

Star and Sun started singing..,

*When your heart starts to sing,  
the magic will begin.  
Gaia sings, ooohm the key,  
hakini namada it's time to see.*

*Begin, to dream your door,  
the way to your Loveland core.  
With the flute and the drum,  
singing and having fun!!!*

Eon, Kimama and Snowflake were touched in their hearts.., thank you so much beloved Star and Sun. It's becoming such a beautiful song. We will see you later, bye for now!! Kimama said.

Bye, bye !!!, See you later, Sun and Star replied.

Afb 8 Eon, Sterre, Zonne, Kimama watervallen A3

Shall I join you two so we can all fly together and go on our way to meet with Maka now, my loyal helper friend? He will be so happy to meet you, Eon said.

Well actually I am really curious which drawing Maka is, Kimama giggled.

He is really small and has elf ears, does it ring a bell?, Eon replied.

Yesssssss, Kimama shouted happily, he is soooooo sweet. And I think I already see him sitting in that colorful tree over there, and she pointed in Maka's direction.

She started to wave so hard towards Maka, that.... oops-a-daisy... she almost fell off Snowflake... Be

careful love, Eon and Snowflake said to Kimama, both a little bit worried. Yeah, yeah, it was a close one, but I'm all right, hi...., hi....., Kimama giggled.

Welcome dear Kimama, I am also soooo happy that you finally arrived. My name is Maka and I am the loy-

al helper of tree keeper dragon Eon. I take care of all the healthy minerals in the ground, Maka said.

What are minerals? Kimama asked.

Minerals are a very small kind of crystals that live in the soil and stone family, they take care of our bodies so that we stay very healthy here in Loveland, Maka explained.

Woww, how sweet of you to take care of them! Thank you so much for that!! We shall soon meet each other again, sweet Maka and Eon! But now we need to go on to meet the others that live in Loveland. Till next time, bye byeeee, Kimama said.

We hope to see you again soon dear Kimama, Eon and Maka shouted happily. Kimama jumped on Snowflake's back, and they continued their tour of Loveland.

Look over there Snowflake, at that big tree, next to the waterfalls, do I see a fairy?? Kimama asked.

Yessss, Kimama, that is a very special fairy and I am already headed that way, my love..

When they came closer and closer, Kimama could see what the fairy was doing, she touched the tree with her magic wand and the color of the tree became more intense and more beautiful and suddenly started to sparkle lights...

Snowflake slowed down and flew alongside the fairy.

Hello magical fairy, Kimama shouted joyfully!

Ooooo, hello, what a blessing to finally meet you sweet Kimama, the fairy answered.

All the others already told me you had arrived. I am color fairy Nidawi, I take care of all the colors here in our Loveland. I touch all the things that need some more color with my magic wand and then they will shine brighter and lighter colors, this way Loveland will always be in the light!, Nidawi said.

Wowww, that is special! Beautiful colors make everybody happy. Thank you so much for taking care of the Loveland colors, beloved Nidawi, said Kimama with a big smile on her face..

Kimama, Nidawi asked. When you have re-learned how to fly with your own wings again, will you come and see me so that we can color together? That would be so much fun!!

Well to answer that question with a big smiley YES, didn't take Kimama long, because coloring was the thing she loved most. Nidawi, I promise, I am going to

practice often. When I can fly with my wings again, I will come visit you, because I just loooooove coloring. Kimama promised Nidawi.

Kimama, we need to continue our journey now, Snowflake said. You still haven't met flower fairy Chepi, Grassy and the Earth gnome Ewan. In about one hour your alarm on Earth will go off, time for a new school day, so we're kinda in a hurry, Snowflake joked..

One hour, alarm, school? It's like I just arrived here, Kimama said surprised. Snowflake and Nidawi couldn't help giggling...

Snowflake explained, on mother Gaia there is a clock and you live with time there, but here time doesn't exist. Here we live in the moment. This is something you will also teach the people on mother Gaia in the near future.

Well, that's weird, living without a clock and time, Kimama said... No, no, Snowflake giggled, living WITH a clock, that is weird. But that is something you will soon get to realize Kimama. Come on now, jump on my back, it's time to continue our journey!

Bye, bye, sweet Nidawi, see you next time!!! Kimama shouted joyfully when they flew away. Whooosh, resuming the journey high in the sky of Loveland..

Look there, down there, Snowflake said. That field of flowers next to that big mushroom house, do you see

those flowers?. They need some love, so that is where we will find and meet the flower fairy.

Hmmmm? How do you know those flowers need love Snowflake?

Well, if you look really well, Snowflake answered, you will see that some of the flower heads are looking at the ground.

Yeeez, Snowflake, do you have such good eyes? Can you see the heads of the flowers from up here, high in the sky? Kimama asked really surprised...

That is because I've learned to use my eyes as binoculars, like a hawk or a eagle can, Snowflake said.

Wow, that is super handy, I want to learn that too, are you going to teach me that too Snowflake?

Yes my sweet Kimama, you are going to re-learn everything you already know and so much more, like flying, breathing under water, using your eyes as an eagle does, and much much more, Snowflake answered.

Yay, and WOW, breathing under water, really??

Yes really!, Snowflake said.

That would be great to be able to breathe under water, that way I can also meet everyone from the water family, and play, swim and dive with the dolphins and mermaids, Yayyyy...!!!!, Kimama was sooooo happy!!

But everything will come in its own time, and let us first start with you learning to fly again with your beautiful butterfly wings, Snowflake answered laughing.

Hey, Snowflake, look down there, at the big mushroom house, I think I can already see the flower fairy sitting on a flower!! Heeee, hello, hello flower fairy!!, Kimama shouted joyfully.

Snowflake landed in the flower field.

Welcome home in Loveland, dear Kimama. I am so happy to see you here in your own Loveland, Chepi said.

And I am so happy to finally be home again with all of my Loveland family! Thank you so much Chepi, for

taking such good care of all of our flower family, Kimama smiled...

You are so welcome, Kimama. I just love to share my joy, love and light with all of our flower family! Chepi answered.

Listen everybody!!, I think the singing elves Sun and Star are coming!, Snowflake said.

Hi Loveland family, it is singing time again!! The new part is ready! This time the flowers beings gave us the new magical sounds for this part of the song.

And thank you, Chepi love, Sun said. Because you were the one that gave the flower beings new light, and that made their sounds even more beautiful! Okay, there we go sister..., one....,two....,three....

And the angelic sounds of the singing elf sisters started once again..

*Feel the love sparkle inside,  
your powerful shining light.  
The love seed is growing,  
becoming all knowing.*

*Look!!, the door is opening,  
time to spread our wings.  
When we hear the sacred drum,  
it's time for Loveland fun!!!*

Soooo beautiful!! It makes me so happy inside!! I can hardly wait for the next part, Kimama said with her smiling face! Thank you Star and Sun for bringing so much singing joy to Loveland! See you soon loves!!

You are so welcome Kimama!! We will see you soon, because we heard the pink crystal rocks already have new sounds for us.. Bye, bye now!!

Suddenly, in the far distance Kimama could hear a different soft sweet voice, “Hello, Hello, Kimama welcome home” but she couldn’t see anyone.... “Hello, knock, knock, here I am, down here,” Grassy shouted as hard as he could.

Aaaaah, there you are, between the grass... Ha, ha, well, I still need to train my eyes so I can see as well as you all can, Kimama said with a smile.

That doesn’t matter Kimama, I am indeed very, very small, but because of the sparkling bright golden light in my heart I feel just as big as Eon the Dragon, Grassy said very proudly!

Kimama had to laugh and said, I know that feeling Grassy! Since I arrived in Loveland and constantly feel

the sparkling bright golden light warming up my heart with pure love, I feel really big and strong too.

Watch out Kimama!!!, Grassy shouted. You’re almost losing your flower crone ! Thanks for the warning Grassy, I will take it off so it will not fall on your pretty grassy self, Kimama giggled..

Grassy continued, I am here to tickle the wind and air, so that brother wind and sister air can laugh like we always do. Laughing and playing a lot is really healthy and big fun.

That’s wonderful Grassy!!!, thank you for bringing laughter and joy to our brother wind and sister Air, Kimama said.

Look, who comes walking towards us from over there,

Chepi said joyfully...

Where? Kimama asked...

Over there in the mushroom village, Chepi said.

Kimama could see a funny small gnome coming their way, and he said with a very low heavy voice,.....well, well, what kind of nice gathering have we here!

Hello sweet family and welcome home dear Kimama. I am also very happy, like the rest of us, to finally be able to really meet you here in our beautiful Loveland.

May I introduce myself, I am Ewan, the Earth gnome and I take care of all the crystal light lines that live deep under the ground in Loveland.

These crystal light lines, Ewan continued, take care of all the light and love so that everything is connected and can talk through thoughts here in Loveland.

And you do that all alone dear Ewan? Kimama asked...

Yes, Kimama, answered Ewan. But now that you are

home again in Loveland, I want to ask you to color some more family for me when you are back home on mother Earth. And then when you are back here in Loveland, you can give them life with your magic rainbow wand. Would you do that for me Kimama? Ewan asked lovingly.

But of course sweet Ewan, that is actually a really good idea! And when I am doing that I could also make more family for everyone here in Loveland. What do you think?? Should I do that?

Everyone cheered happily and screamed in choir, yesssssssss!!!!

Well everyone then I will start coloring as fast as I can at home and will give Loveland some new family very soon, Kimama said.

Snowflake had to disrupt the happy party and said, I think I hear your alarm clock at home on Earth dear Kimama. It's time to go, time to draw some new family and to pass on all the pure love you now possess and spread it amongst the children on mother Gaia in your Earth school.

Already? Jeez..., now time does fly in a world without time, Kimama said with a sad face, a little disappointed.

But your love on Earth is really needed dear Kimama, Snowflake continued, and tonight at bedtime we will see each other again, so don't be disappointed sweetie. Give everybody a big hug and then jump on my back, so I can bring you back to the magic rainbow door.

Yes, okay you're right Snowflake, Kimama answered. It is time now!

I will bring forth my love and light, and all I have learned so far in Loveland. Share it with my friends in Earth school. I will tell everyone how to find their own magical door, so that we can help to bring pure love peace and light back to mother Gaia!

Everyone in Loveland suddenly came by because they already knew through thought, telepathically, that Kimama would leave to go back to her Earth home.

Wait!!, wait....., please just stay a little bit longer, sweet Kimama!!, We have the refrain of the Loveland song also ready now, the pink crystal rocks gave us the new magical sounds. The first Loveland song is

ready now!, Sun and Star said happily.

Ooooo, that is so wonderful!!, Star and Sun. The whole Loveland family is present now.. And we all are very curious about the refrain of the song! We are ready and waiting loves!!

Okay sister, here we go.... one..., two..., three.....

*Da Ra La Ka Hakini!*  
*Gaia we are your heartbeat,*  
*Da Ra La Ka Hakini!*  
*together we are love seeds!*  
*Da Ra La Ka Hakini!*  
*Come on!!, let the magic start!*  
*Da Ra La Ka Hakini!*  
*with love conquer every heart!*  
*Da Ra La Ka Hakini!*  
*Together all hand in hand!*  
*Da Ra La Ka Hakini!*  
*With unity comes Loveland!*  
*Da....Ra....La....Ka....Hakini!!!!*

Everybody was cheering and clapping with excitement!! Again, I have goosebumps all over..., WOW...,

you both sing so beautiful!! The song is also gonna make mother Gaia very happy, I'm sure of it!

I will also sing the song today in Earth school, so everybody in my class can feel the magic of Loveland. Thank you so much, sweet Star and Sun!!!.

Dear everyone, you all have lots of fun in Loveland and I'll see you tonight around 8 pm Earth time. I love you all very much, Kimama said with a big smile on her face!.

She jumped on Snowflake's back, gave him a big hug at the magic rainbow door, went through the door and found herself back in her bed in her bedroom on Earth.

In the far distance she could still hear the sweet voice of mother Gaia thanking her for bringing forth pure love and light to all on Earth.

And there she was back sleeping peacefully in her nice warm bed. Outside it was already becoming light, when the sweet voice of Elia's mother woke her up. Elia, Elia... love..., wake up!!! Breakfast is ready and in one hour you have to be in school... Hup, hop, hopla

out of bed....!!

Elia had never woken up so happy and answered her mom, yes mommy, I am already on my way! Her mom was surprised and asked, did I just really only call you once? And you are already awake and on your way to the breakfast table?

Yes mommy, from now on everything is different... Elia said with a big smile on her face. Oooh dear it's so nice to see you wake up in the morning with such a big smile on your face, Elia's mom answered lovingly...

Elia had to laugh really hard in herself. If she only knew where she was last night, her mom just wouldn't believe it.

But Elia knew in her heart, that everything she had experienced that night in Loveland was true and real.

Sooo...there..., the first Loveland story has already come to an end. Now all of you know how you can

help mother Gaia and your Star family in bringing forth a Loveland to Earth.

Mother Gaia just told me, that there are a lot more of Loveland adventures coming and that I, Blinky Star have been chosen to share all those adventures with you. I am so curious about all the new Loveland family and all the new magic tricks Kimama is gonna learn! Are you??

Beloved Earth children, be pure love in everything you do and use your imagination to also make your very own Loveland. Then automatically the starlight in your hearts will grow bigger and bigger. Just as big as the golden bright sun on a hot sunny day!

With the beams of your bright starlight and your love, you will warm the hearts of all the other people on mother Gaia. And know, that with your pure love and bright starlight that lives in your heart, you can always find and connect to us, your star family.. When you do that we can all finally be together as one big loving family! And play, laugh, sing, dance, fly and do magic together!!

Thank you for all your love! Don't forget to share your pure love and light with the plants, flowers, animals,

trees, elements and each other... Because you can only find and open the door to Loveland, when you are pure love and share your love with all things!!

So keep practicing and don't be angry with yourself when it doesn't happen at once. Everybody can do it and so can you! When everyone becomes pure love and nice to each other then we can also create a Loveland on mother Gaia, so that everyone everywhere can always be in Loveland all the time...

Elia lives on the other side of the Earth and now it's morning there, but here it's already night and bedtime. So quickly close your eyes and take a deep breath. Take Loveland with you in your heart, see the light through the darkness and make your own magical door to your beautiful Loveland! Have fun!!

Good night and sleep tight...

See you next time, when I have a new Magical Loveland Adventure to share!!

Love you ALL,  
Lots of love from your star brother, Blinky.

## Loveland Song:

Everybody close your eyes,  
the way to our starlight..  
Being love is all we need,  
together we are magic seeds..  
Give each other a hand,  
with unity comes Loveland..  
When we hear the sacred drum,  
singing and having fun!!!

When your heart starts to sing,  
the magic will begin.  
Gaia sings, ooohm the key,  
hakini namada it's time to see.  
Dream your magic door,  
the way to your Loveland core.  
When we hear the sacred drum,  
singing and having fun!!!

## Refrain:

Da Ra La Ka Hakini!  
Gaia we are your heartbeat,  
Da Ra La Ka Hakini!  
together we are love seeds!  
Da Ra La Ka Hakini!  
Come on!!, let the magic start!  
Da Ra La Ka Hakini!  
with love conquer every heart!

## Refrain 1x

Feel the love sparkle inside,  
your powerful shining light..  
The love seed is growing,  
becoming all knowing..  
Look!!, the door is opening,  
time to spread our wings..  
When we hear the sacred drum,  
it's time for Loveland fun!!!

## Refrain 2x

The Loveland song you can download at: [www.qizensworld.nl](http://www.qizensworld.nl)

**A girl in a grey colorless city, starts to realize very soon that not yet all the colors are gone. One day when she closes her eyes, the colors take her to a new magical world. The beginning of Loveland!**

*The story Loveland and all illustrations are based on two inner journey*

*paintings. Qizenna is a autodidact artist and two of her greatest passions are creating beauty through writing and painting. Loveland is born to tickle the imagination and inner world of every child.*
